The Coastal Harbor Mental Model

Operated by **Kolibaba Seafood Inc.** · Social Impact Initiative of **Bhoomiputra Foundation** · WhatsApp: **+91 76665 11511**

Forget code for five minutes. What is MatsyaMart in the real world?
Imagine Mumbai's coastline as a giant historic harbor market. The market has **4 physical stalls**: **1. The Seafood Kitchen** (Food Feasts), **2. The Guide's Jetty** (Dawn Walks & Tides), **3. The Artisan's Bench** (Masterclasses), and **4. The Pantry Warehouse** (Packaged Goods). In the middle sits the **Harbor Master's Office (The CRM at /admin)** holding a master clipboard that tracks who booked seats, who paid, and dispatches carrier pigeons (WhatsApp) to cooks and guests so nobody gets lost.

1. THE 4 OPERATIONAL STALLS (THE 4 PILLARS)

Food Stall — FOOD

Courtyard Feasts

Local Koli home-cooks host pop-up seafood feasts in their ancestral courtyards. Menu: Surmai fry, crab curry, sol kadhi.

Walks Stall — WALKS

Heritage Trails

Naturalist fishers guide visitors through Sassoon Docks auctions and intertidal low-tide safaris during spring tides.

Workshops — CRAFT

Masterclasses

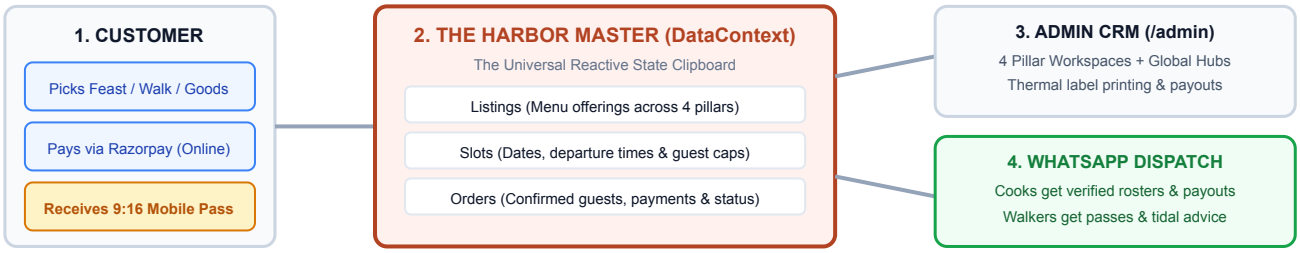

Master artisans teach net-weaving, dry fish spice-pounding, and shell craft with take-home artisan toolkits.

Goods Stall — PANTRY

Physical Cargo

Dry bombil, wild mangrove honey, and handwoven jawla baskets shipped via courier with printed thermal labels.

2. VISUAL MAP: HOW MONEY, DATA & WHATSAPP MOVE

3. THE FOUR PEOPLE INVOLVED IN EVERY ORDER

1. The Guest: Pays online, gets 9:16 phone ticket with Google Maps pin.

2. The Koli Cook / Guide: Gets WhatsApp message with headcount a day before.

3. The Coordinator (Admin): Clicks one button to dispatch WhatsApp manifests.

4. The WhatsApp Pigeon: Deep links (wa.me) format and deliver messages at ₹0 cost.

The 3 Core Atoms: The Building Blocks of Every Screen

No matter what page you open in MatsyaMart, every single piece of information is stored in **one of only three entities**. If you understand these three, you understand 100% of the data wiring:

Atom 1: Listing (The Menu Card) `Listing`

The evergreen offering. It represents *what is being sold*, independent of any specific date.

- `title` : "Koli Courtyard Feast"
- `price_inr` : ₹1,200 per guest
- `host_name` : Anusaya Tai Koli
- `host_phone` : +91 99284 77158 (Cook's WhatsApp)
- `pillar` : "food" | "walks" | "workshops" | "goods"
- `stock_count` : 24 (Only for physical goods)

Atom 2: ExperienceSlot (The Table/Window) `ExperienceSlot`

The calendar appointment. It represents *when and where* guests show up. (Goods do not have slots).

- `slot_start` : 2026-10-25T12:30:00 (Saturday lunch)
- `slot_end` : 2026-10-25T15:30:00
- `capacity` : 12 guests maximum
- `booked_count` : 8 seats confirmed
- `is_cancelled` : Weather/tide emergency toggle

Atom 3: Order & OrderItem (The Paid Receipt & Ticket) `Order`

Created the moment payment succeeds. It ties the customer to the `Listing` and the `ExperienceSlot`.

Order Level:
- `order_ref` : MM-EXP-2026-0042
- `customer_name` : Priya Deshmukh
- `customer_phone` : +91 98200 11223
- `total_amount_inr` : ₹2,400 (2 Seats)
- `status` : "confirmed"

Item & Attendee Level:
- Guest 1: Priya Deshmukh (Checked-in: No)
- Guest 2: Rohan Deshmukh (Checked-in: No)
- Emergency Contact: Ajay (+91 98200 44556)
- Pass URL: `/order/confirmation/MM-EXP-2026-0042`

WHERE DOES DATA LIVE? (THE STORAGE PLUMBING)

Storage Layer	Where It Is Stored	Why It Matters to You
1. React Memory (DataContext)	Inside the user's active browser tab memory.	Makes browsing instant with zero spinner delays. Clicking filters or searching happens in 0 milliseconds.
2. LocalStorage	Saved directly to your browser's local hard drive.	Keys: `matsyamart_listings_v2`, `matsyamart_orders_v1`. If you refresh or lose Wi-Fi, your changes are 100% preserved.
3. Supabase Cloud DB	Remote PostgreSQL database on Supabase cloud.	When `VITE_SUPABASE_URL` is connected, bookings and listings sync to the cloud database so your whole team sees them.

THE ₹0 WHATSAPP MAGIC: HOW MESSAGES DISPATCH WITHOUT BILLS

Instead of paying Meta ₹0.75 per message plus server fees, MatsyaMart uses **client-side WhatsApp deep linking**:

1. `src/lib/whatsapp.ts` normalizes the recipient's phone number into clean digits (`917666511511`).
2. It compiles the formatted message text with emojis, names, headcount, and ticket links.
3. It triggers `https://wa.me/91XXXXXXXXXX?text=...`. WhatsApp Web or Desktop opens instantly with the message typed out, ready to send with one keystroke!

Customer Storefront & The 9:16 Mobile Pass

How a customer discovers an experience, reserves their spot, and receives their ticket:

1. THE STOREFRONT EXPERIENCE

- **Hero Spotlight Carousel**: Hand-picked fanning cards displaying Mumbai's top experiences. Admin can reorder them in 1 click.
- **Pillar Navigation Tabs**: Customers can filter between `Food`, `Walks`, `Workshops`, and `Goods`.
- **Floating WhatsApp Support**: A green pulsing button on every page connecting directly to `+91 76665 11511`.
- **Razorpay Checkout Modal**: Captures customer name, phone, emergency contact, coupon code, and payment.

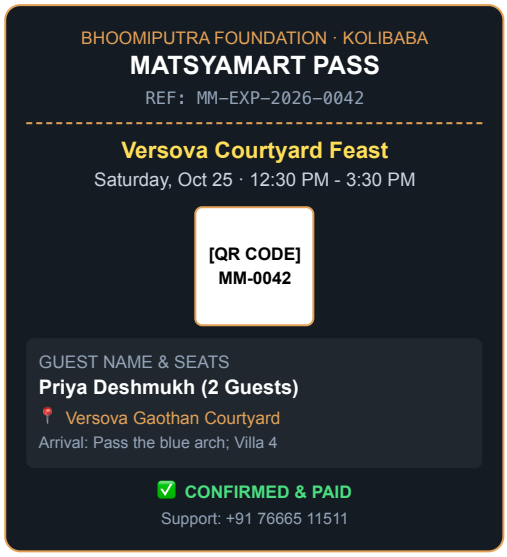

2. WHY 9:16 ASPECT RATIO FOR TICKETS?

Traditional ticketing systems send an ugly, landscape A4 PDF receipt that guests struggle to open on mobile. **MatsyaMart uses vertical 9:16 smartphone passes** (like Instagram Stories or Apple Wallet). When the guest arrives at the jetty or courtyard, they hold their phone in one hand and show the pass instantly.

3. WHAT IS ON THE PASS?

- **Vibrant Koli Saffron & Terracotta Branding**
- **Live Scannable QR Code** (Encodes ticket ref & URL)
- **Exact Rendezvous Point** (Google Maps GPS button)
- **Secret Arrival Notes** (e.g. *"Pass the blue arched gate; Villa 4"*)
- **Attendee Breakdown** (2 Guests Confirmed)
- **One-Click WhatsApp Share Button** (Forward ticket to family)

VISUAL MOCKUP: THE 9:16 PASS

The 4 Operational Workspaces (The Engine Room)

Inside the Admin Command Center (`/admin`), each trade operates through a tailored 3-tab workspace:

Workspace	Sub-Tab 1: The Offerings	Sub-Tab 2: Schedule & Venues	Sub-Tab 3: WhatsApp Dispatches
1. Food Workspace DINING	**Dinners** Feast descriptions, menu courses, cook name, cook WhatsApp phone, drag & drop photos.	**Venues & Windows** Courtyard addresses, Google Maps link, lunch/dinner time slots, guest seat caps.	**Kitchen Roster** Tomorrow's guest manifest. **1-Click WhatsApp to Cook** (headcount + payout) + 1-Click WhatsApp passes.
2. Walks Workspace HARBOR & TRAILS	**Trails** Heritage walking routes, harbor permits, guide name & WhatsApp phone.	**Guides & Tides** Low-tide departure slots, tidal level meters (e.g. 0.4m), walker capacity limits.	**Walker Manifest** Walker attendance checklist, emergency contacts. **1-Click WhatsApp to Guide** + passes.
3. Workshops ARTISAN CRAFT	**Classes** Masterclasses (Net-weaving, spice-pounding, shell craft), artisan bio.	**Studios & Toolkits** Studio workbench locations and material kits required per participant.	**Participant Roster** Enrolled students checklist. **1-Click WhatsApp to Artisan** + participant passes.
4. Goods Workspace PANTRY & CARGO	**Inventory** Dry fish, wild mangrove honey, cane baskets, stock counts, low-stock threshold triggers.	**Courier Fulfillment** **4×6 Thermal Courier Label Printer** with barcodes, Bluedart/Delhivery assignment.	**Stock Alerts** Live warning alerts for low inventory. 1-Click WhatsApp tracking update to customers.

WHAT THE COOK RECEIVES ON WHATSAPP (THE DAY-BEFORE DISPATCH)

```
🐟 *MatsyaMart Kitchen Dispatch · Day-Before Roster*

Namaste *Anusaya Tai Koli*!
Here is tomorrow's verified guest manifest for your seafood feast:

*Feast:* Versova Gaothan Courtyard Feast
*Date:* Saturday, Oct 25 (12:30 PM – 3:30 PM)
*Total Booked Guests:* 12 Guests  |  *Total Plates Required:* 12 Plates
*Estimated Cook Payout:* ₹12,240

📋 *Guest List:*
1. Priya Deshmukh (2 seats) – +91 98200 11223
2. Rohan Mehta (4 seats) – +91 98199 44321
3. Sneha Kulkarni (2 seats) – +91 98201 55667
...
_Please procure fresh catch at dawn market. Contact MatsyaMart coordinator if any shortage._
```

Global Hubs, Staff Security & Booking Timeline

1. GLOBAL ADMIN HUBS (CROSS-PILLAR)

WhatsApp Hub:
Two-way live customer chat inbox, Day-Before automated broadcast composer with live phone mockup preview, community cohorts, and DPDP settings.

All Events Manifest:
The master gate check-in scanner. Search any guest name, phone, or scan their pass QR code across all feasts, walks, and workshops.

Host Payouts Ledger:
85/15 Community Revenue Split: Reconciles payouts (85% to village host / 15% platform fee) with bank details and UPI settlement dates.

Review Queues:
Vendor onboarding inbox. Review, approve, or decline proposals submitted by community members via `/host-with-us`.

2. STAFF ROLES & PERMISSIONS (RBAC SECURITY)

Role Tier	What They Can See & Do	Assigned Email
Owner (Admin)	Full unrestricted access to all 13 sections, payouts, coupons, staff roles, and settings.	`hello@matsyamart.com`
Manager	Access across all 4 pillar workspaces, event manifests, and inventory. Cannot view payouts or edit roles.	`kolibaba.operations@matsyamart.com`
Coordinator	Strictly locked to their assigned pillar (e.g. Food Coordinator only sees Food Workspace). All other sections hidden.	`coordinator.food@matsyamart.com`

3. THE 24-HOUR LIFECYCLE OF A BOOKING (TIMELINE)

• **T-Minus 5 Days (Customer Books)**: Guest selects Saturday 12:30 PM, pays online via Razorpay. Order is confirmed, seat capacity is decremented, and the 9:16 Mobile Pass is generated.

• **T-Minus 24 Hours (Kitchen Dispatch)**: Coordinator clicks *"Send Roster to Cook (WhatsApp)"* in Food Workspace. Anusaya Tai receives the guest list and visits the dawn fish auction.

• **T-Minus 2 Hours (Guest Reminder)**: Coordinator clicks *"WhatsApp"* on guest row. Guest gets a reminder message with the Google Maps pin and pass link.

• **T-Zero (At the Courtyard)**: Guest presents their 9:16 pass on smartphone. Coordinator taps *"Check-In"* in the manifest.

• **T-Plus 24 Hours (Payout Settlement)**: Payouts Ledger calculates the 85% host share ready for bank settlement.
